

## Are slugs becoming a pain in your grass?

### Control them with Deadline® M-Ps.

Applying Deadline M-Ps protects your grass seed crops with its superior slug attractant system (DB27) which has 5 times as many bait particles as other brands. In dry and wet conditions

**DEADLINE M-Ps** Deadline M-Ps doesn't easily dissipate or dissolve, inhibits molding and the color-fast, blue pellets can be seen long after application, making it an effective, long-lasting solution for slug control. Watch your grass seed yields improve when they go from sluggish to sluggish with Deadline M-Ps.

Just contact your PCA or agricultural chemical supplier or AMVAC at **888-462-6822** (GO AMVAC) or visit [www.amvac-chemical.com](http://www.amvac-chemical.com).
